

MSO Environmental Policy

MSO Cleland Ltd is committed to protecting both the local and the global environment. To minimise the environmental impacts concerning our activities, products and services, MSO undertake the following actions:-

- To comply fully with all relevant environmental legislation.
- To retain our certification to ISO14001:2015 and strive for continuous improvement.
- To produce an annual environmental improvement plan setting out our objectives and targets that are measured, monitored and reviewed by the Senior Management team.
- To provide all employees with the training and resources required to meet our objectives.
- To identify and use materials/processes which prevent pollution, reduce waste and minimise the consumption of natural resources.
- To promote the use of certified wood products and to ensure that no wood from controversial origins is used in its supply chain.
- To promote the principles of the circular economy by encouraging sustainable design, efficient use of energy, minimum use of raw materials, ease of recyclability, use of recycled materials and the various benefits.
- To Reduce, Re-use, Recycle the resources consumed by our business wherever practical.
- To promote sustainable procurement through our sustainable/environmental sourcing policy and supplier codes of conduct
- To invite our customers, suppliers, sub-contractors and other stakeholders to participate in our efforts to protect the environment.
- To openly communicate our policies and practices to interested parties

Objectives

Energy

- To maintain a 100% renewable electricity source and reduce Carbon emissions annually (equipment and transport)
- To continue to use carbon capture through Scottish Woodlands Forestry to more than offset the carbon emissions produced by the business

Waste

- To maintain our annual Zero-to-Landfill policy through employee training campaigns on waste segregation and disposal

Water

- To maintain our annual low water consumption through employee awareness and flow stop equipment

Emission to air

- To minimise the volume of VOC's emitted so that we stay under the solvent consumption threshold of 15 tonnes/year

Sustainable Design & Procurement

- To maintain our daily practice of 'green' design and increase our plastic reduction projects annually
- To maintain our sourcing of all cartonboard materials from sustainable sources

The company is committed to continual improvement of environmental performance. The policy will be reviewed annually by the Directors to ensure it takes into account any business changes. The policy will be communicated to all employees, contractors and suppliers, and be available to the public through our website www.mso.co.uk.
